OUTDOOR CAMPING

01

Changzhou Intercamp Outdoor Appliance Technology Co., Ltd which focuses on the design, development and production of outdoor integrated products. With utility innovation as our principal route, we center on green environmental protection, new material application, and fashionable novelty as the carrier to design outdoor camping and leisure products. Not only exports the product to America, European and Australia market. And also we provide two-way services to domestic outdoor and camping market purchasing agent.

Since 2017, the original outdoor integrated kitchen box we produced had been sold well AMAZON international site and achieved high praise from customers. Now the upgraded version of cooking station named EAT-CAMP 2.0 has also been launched.

Here we sincerely invite friends to visit, investigate and cooperate with us to create bright future.

DEVELOPMENT HISTORY

2007

Establishment

Founded in 2007, mainly engaged in the import and export business of products. Business scope cover more than 150 countries and regions.

2015

Reform

In 2015, We reconstituted and established Changzhou Intecamp Outdoor Appliances Technology Co., Ltd which officially entered the field of outdoor products.

2017

EC Original

In order to meet the needs of consumers, a new and exclusive patent design of outdoor portable kitchen box was officially designed and produced in November 2017, and is defined as Eat-camp original.

2021

Eat-Camp 2.0

As living standards and the concept of consumption, further upgrades the products to meet people's requirements. It's EAT-CAMP 2.0.
